

IT CAN STAY LIKE THAT.

WOW...

Our year feels very joyful, with lots of sun, great themes, exciting tours, unforgettable experiences, strong relationships and promising new ones.

So, it's nice to look back ...

Whether a roadshow in Bavaria, workshops and congresses in Germany & Spain, incentives all the way to Africa, it was all there: reliable beautiful to boldly innovative, personal and private to large public, long-standing trust to cautious approach.

And sometimes politics also plays with ...

Bavarian political celebrities and a rally as part of the program require more than superior event management. In this case, it was also a matter of complying with special regulatory requirements. Accompanying 760 guests at the congress and 2000 participants at the rally in front of Würzburg Cathedral and keeping an eye on all risks was an extra challenge.

The fact that the event and the BLLV's commitment to the quality of education in the future are of interest to a wide audience was demonstrated by the large amount of TV and media coverage. The experts from REALIZE pulled all the strings in the background and skilfully and discreetly led the BLLV to the desired success.
